Overview

Being an active part of our communities has always been important to us. Spark Good sprung from a simple question: How might we do more good in more communities more often?

Walmart associates and customers work with community leaders and nonprofits to make a difference every day. We're here to be a force multiplier and turn small actions into big ripples that amount to meaningful impact because we believe that when we come together, we can **Spark Good**.

The Spark Good platform is your one stop shop for accessing our business and philanthropic resources. This communications toolkit offers suggestions on how nonprofits can share their story with their supporters and the community at large to drive engagement.
Spark Good Round Up

**Communication Tips**

**Give it heart**
Tell a story. If supporting your case with data, use only the most compelling statistics. Readers can be overwhelmed by numbers.

**Put a face to a name**
Highlight individuals who'll be helped by the initiative. People are more likely to engage with content about identified individuals than faceless groups.

**Make it punchy**
Write the way you talk. Be brief. Pique curiosity with your headline. Readers only spend a few seconds on emails or posts, so the headline is your best hook.

**Keep it upbeat**
Set a positive tone. Focus on the solution rather than dwelling on the problem. Share successes.

**Be timely**
Reach out during important happenings in your community or relevant national cultural moments that spark interest in your cause.

**Ground it locally**
Tie your message to your target audience's community. People are more likely to engage when it feels local.
